Dear Staff and Families,

Recently, we were notified that two students, in the Nestucca Valley Elementary School, are presumptive cases of COVID 19. These students are "B" day students. As members of the school community, we understand that this might raise concerns alongside a caring response. We are working closely with the Tillamook County Health Department to respond to this news and protect the health of our community by:

Step 1: Following the OHA guidance of a 14 day quarantine for students who are part of the presumptive cases cohort

Step 2: Contact the family of every student who has been in contact with the presumptive cases according to our contact tracing logs

The best way to prevent the spread of COVID-19 is through staying home when ill, wearing face coverings, physical distancing, and practicing good health hygiene habits. Be sure to wash your hands frequently with soap and water, cover your coughs and sneezes, and avoid contact with people who have signs of illness. Protect the community by following the Governor's safety requirements. We will keep you updated with any new information as it comes out, while meeting the requirements to honor everyone's right to privacy. We must continue to move forward with caution, as we strive to mitigate COVID 19 in our school district and community, in order to keep our schools open.

Sincerely,

Misty Wharton, Superintendent

Nestucca Valley School District

Estimado personal de la escuela y familias,

Recientemente fuimos notificados que dos estudiantes de Nestucca Valley Elementary School estan bajo investigacion debido a COVID-19. Estos estudiantes son del grupo "B". Como miembros de la comunidad escolar, nosotros entendemos que esto puede traer preocupaciones junto con una respuesta solidaria. Estamos trabajando con en Departamento de Salud de Tillamook para responder a esta noticia y proteger la salud de nuestra comunidad:

Paso 1: Seguir las guias de OHA, 14 dias de cuarentena para estudiantes que son parte de un grupo donde se encuentran casos bajo investigacion

Paso 2: Contactar a las familias de cada estudiante que ha estado en contacto con los casos bajo investigacion de acuerdo con nuestros registro de seguimiento de contacto

La mejor manera de prevenir la propagación de COVID-19 es quedarse en casa cuando se sienta enfermo, usar cubrebocas, mantener distanciamiento social, y mantener buenas practicas de higiene. Asegurese de lavarse las manos frecuentemente con agua y jabon, cubrirse al estornudar y tos, y evitar el contacto con personas con señales de enfermedad. Proteja la comunidad al seguir los requerimientos de seguridad de la Gobernadora. Nosotros los mantendremos informados con informacion nueva, pero tambien tenemos en cuenta la privacidad de cada persona. Nosotros debemos seguir adelante con precaucion, mientras tratamos de reducir el COVID-19 en nuestro distrito escolar y comunidad, para mantener nuestras escuelas abiertas.

Sinceramente,

Misty Wharton, Superintendente

Nestucca Valley School District
