October 13, 2020

Nestucca Valley Community,

Last night, at our regular monthly Board of Director's meeting, action was taken to commit the Nestucca Valley School District to a Comprehensive Distance Learning model through the second nine weeks, ending in January 2021. Many variables were considered, but the one of greatest importance was the health and safety of our students, staff and ultimately, the greater community at large.

The COVID 19 positive case rate is on the rise in the state and in our county. Unfortunately, this is a trend that will likely continue, as people are indoors more often in the winter seasons, as well as the onset of the cold and flu season. By continuing with the distance learning model, students and staff will face fewer disruptions to learning.

As we did the first quarter, we will begin to explore the options for the third nine weeks as we return from winter break.

Thank you to all of the families and educators for launching our distance learning model and continuing to be flexible and innovative as we navigate this school year with unprecedented challenges. Please feel free to contact me with any questions at mistyw@nestucca.k12.or.us or 503 392 3194 Ext 404.

Stay safe and take care,

Misty Wharton
